UCSI student Chan Mei Xuan became the first Malaysian pianist to clinch a gold award at the Asia Piano Competition.

A LEGACY OF EXCELLENCE

At UCSI University, our students achieve because they dare to do greatly. They do so knowing that they have the aptitude and attitude to overcome any challenge. We prepare them for this and we are gratified when they achieve year after year.

We believe that the true measure of success lies with our students. And until they become the best they can be, we will not rest.

Some of our many achievers in 2013 - 2014.

Satyaraj Muniandy and Prabu Gunasagarar won the grand prize of RM15,000 in the Schlumberger Ocean Plug-In Competition, beating 30 teams from Malaysia and Singapore.

UCSI students swept four out of six awards at the 25th Intersivity Biochemistry Seminar 2014.
